Subject: Feedback to Sylvia and Sonja

Hi, here's some feedback from your lessons.

The method (Placemat) was good and it suits well in this case. Next time might be better to explain the method first and continue then. The videos were good to activate the students. Also those three topics were good.

In the beginning of lesson you were little bit nervous but we think that it is normal when two Austrians start teaching in English us finns. You were brave and open.

It is confusing when two teachers are talking and gives instructions at same time. So next time it's better to make clearer plan who is leading the lesson.

Thank you again and all the best.

Juha and Timo Hauska from Imatra.
